We declare our full support for the action taken by the BSEC to develop closer economic cooperation in the region and, in this regard, we welcome the Istanbul Summit Declaration on the occasion of the Twentieth Anniversary of the Black Sea Economic Cooperation adopted by the Heads of State and Government of the Organisation of the BSEC on 26 June 2012, which emphasizes the importance of parliamentary contribution to all BSEC activities.
5. We state that in the course of the past 20 years the PABSEC has undisputedly demonstrated the necessity and expediency of its existence and activities as a

body that ensures fruitful cooperation and effective communication between the parliamentarians of our countries. We believe that the central challenge facing us today is to ensure that – within the framework of good-neighborly relations, cordiality and partnership between the countries – the integration processes in the region represents a positive factor in the effort to bring together all the peoples in the region and to work towards achieving their prosperity.

6. By virtue of the activities of the PABSEC, there is stable cooperation between the parliamentarians of the twelve BSEC Member States, which enables them to have ongoing and open discussions on various issues of concern to our peoples.
7. For twenty years, the PABSEC has accomplished considerable work on the implementation of the priority tasks and objectives of the regional cooperation; on the approximation of the national laws and sharing of legislative experience; and on the development and application of principles, rules and procedures of international and national laws in specific areas, with the aim to better achieve the desired goals and measurable results at the national, regional, and global levels.

11. Giving due consideration to the recent developments related to climate change on the planet and the new challenges in the field of environmental safety, we emphasize that one of the priorities within the cooperation framework of the PABSEC is the preservation of the environment of the Black Sea region. The joint effort of the BSEC Member States is the only effective measure to prevent environmental and technological disasters that are dangerous not only on a regional scale, but also at the global level.
12. We acknowledge that, in today's world, mutually beneficial cooperation in the economic sphere is not possible without a more careful study of our peoples' cultural traditions and mutual respect for our peoples and their heritage. The PABSEC calls for a study of the cultural heritage of all the peoples in the region and its promotion in the international arena. This goal should be facilitated by actively promoting cooperation in the field of science and higher education, since a well-educated young generation is key to the sustainable development of the BSEC Member States.
13. We affirm our commitment to work together to address the key issues in the BSEC region by addressing weaknesses in the framework of regional cooperation, drawing attention to the need for greater coordination in the growing number of bilateral and multilateral initiatives aimed at fully harnessing the potential of the Member States, as well as giving these initiatives more innovative and sustainable character. At the same time, we note with concern that unresolved conflicts and the consequent negative effects threaten sustainable development and hinder the process of regional integration.

14. In this regard, we call on the leaders of the Member States of the Organization of the BSEC for closer and more productive cooperation that produces measurable positive results for the economic development of our countries. Such cooperation can be effected through implementation of existing mutually beneficial joint projects aimed at strengthening multilateral cooperation in the Black Sea region and also through the creation of new collaborative projects.
15. We recognize that more productive and closer coordination between the PABSEC and the Organization of the BSEC, the BSEC Business Council, the Black Sea Trade and Development Bank and the International Centre for Black Sea Studies is a priority. We believe that stronger coordination among these bodies is the most effective means of achieving the proactive participation that is essential if our countries and our peoples are to successfully meet the challenges ahead.
16. We resolve to make every effort to ensure that the PABSEC evolves into a more effective instrument for addressing the priority tasks by equipping it with the necessary resources and tools to implement the adopted Decisions and Recommendations.
17. In this regard, we express our confidence that the PABSEC International Secretariat will make optimum use of all available resources in accordance with the rules and procedures agreed upon by the General Assembly, in the interests of all the BSEC Member States, by concentrating on the tasks that conform to the common priorities of our countries.
18. We emphasize our interest in further strengthening and expanding cooperation with international parliamentary assemblies, with special attention to the development of ongoing relations with the European Parliament, the Parliamentary Assembly of the Commonwealth of Independent States (IPA CIS), the Parliamentary Assembly of the Eurasian Economic Community (IPA EurAsEC), the Inter-Parliamentary Union (IPU), the NATO Parliamentary Assembly, the Parliamentary Assembly of the Council of Europe (PACE), the Parliamentary Assembly of the Mediterranean (PAM), the Parliamentary Assembly of the Organization for Security and Cooperation in Europe (OSCE PA), the Parliamentary Assembly of the Union of Belarus and Russia (PAUBR), the Parliamentary Dimension of the Central European Initiative (PD CEI), Interparliamentary Assembly on Orthodoxy (IAO), the Parliamentary Union of the Organization of the Islamic Conference (PUOIC); and we stress the need to establish new relationships with other international and regional organizations.
